

JACKSON CATHOLIC SCHOOLS

Family COVID Update

Dear Families,

August 26, 2021

As we begin this year, we enter with a sense of great joy to be back together again as a Catholic School Community. What is most important to us is continuing to educate your students in a Catholic environment that is centered around our faith.

This correspondence is important to keep you updated because situations continued to develop in early August. There was a fast-paced set of data coming from multiple sources. As such, we continue to work with our community partners to try to capture all possible information as close to the first day of school

In the last few days the Jackson Catholic Board of Trustees voted to maintain the policy you received on July 20th. Please remember the health and welfare of our students will always remain one of our top priorities. With that said, we will continue to monitor in real-time the ever-changing situation that COVID-19 brings about within our community. Because of the possible rapid movement of the situation, changes may need to be made as the year progresses and if our data changes, those decisions will be made by school administration based on the most recent information for our schools.

Our ability to make changes is important as we navigate this year based on the fundamental fact that we love your students and we want the very best for them. We at Jackson Catholic Schools ask for your prayers as we walk together through this year.

In the Light of Christ,

Tim DeWitt

Executive Director, Jackson Catholic Schools
